

My name is Jared Delgado Hernández, I was born on August 5, 2006, I'm 17 years old. My father's name is Jorge Luis Delgado Perez, my mother's name is Yuriana Hernández Rodríguez, and my litter sister is Angelica Keisha Delgado Hernández. I grown up in Zihuantanejo de Azueta, in the state of Guerrero.

I'm teenager that loves to play piano and spend time with my friends either playing video games or in a restaurant. The Niños Adelante foundation gave me the opportunity to have my godfather Chad Schroeder, who helped me to have the opportunity to study English since I was in the second year of high school. There have been many ups and downs in my life, but having a support from this person has been of great help.

I managed to finish high school with a 9.04 GPA, where I have tried to keep participating in events and opportunities that my school tried to give me, in

which I participated in a summer of research in the capital of Guerrero, Chilpancingo. Now, I going to have my first certificate from Cambridge, a great privilege that I have been able to have, that's why I want to continue my studies outside, especially in Guadalajara Jalisco in LA UDG, where I want to study Financial Management and Systems add I want to learn more languages like French or Germany.

I want to become a good professional who achieves what is necessary to help improve the community. Mexico is a country that needs more and more trained people, it needs honest people to make a better country, in addition to an identity alien to the popular discourse of "he who does not deceive does not advance". I would like to conclude my studies successfully and thank those who help me achieve my goals, and I hope to be able to help those who have not had the same opportunities as me. I hope that this letter has transmitted all my feelings and thank you for everything!

Jared Delgado Hernández
