

Dear Friends of Ninos Adelante committee, my name is Alondra Lizbeth De Jesus Cortes, I am a current student in the program Ninos Adelante for Six years, and it has been a year since I finished high school. My average is 9.3. My plans at this point in my life is to study psychology, at an university here in Zihuatanejo called "Instituto America"

I live with my family: my mother, my brother and my sister, we are four members. My mother Raquel Cortes Brito is a single mother and she worked as a security in a hotel in Ixtapa, my oldest brother Daniel Armando De Jesus Cortes is 21 years old, he started to work in a restaurant after drop out from his studies, my younger sister Karla Maria De Jesus

Cortes is 13 years old and she's in 8th grade.

The last year, I tried to study languages in Guadalajara, but sadly I fail, but I'm really grateful with my sponsors because they help me to study English in a course, at the other part of my free time I used to work in a restaurant in the weekends and as a dental assistant for help my family.

I am candidate to be in the contest of the university students for a special scholarship that could be a big support for my school university project; I have been with the regular scholarship from my sponsors Ron and Judy Vasko for six years that help me a lot. Nevertheless, in college I will have to cover the tuition and having the special scholarship would be fantastic for cover it.

My goal has always been to graduate and become a professional and I will work hard to fulfill my dream. I don't have words to thank all you enough for all you do for the students

Alondra Lizbeth de Jesus Cortes
