

MY GOALS

My name is Vania Jesith Moreno Calderón, I was born on May 23, 2007, in the small port of Zihuatanejo, my small family consists of my father named Juan Manuel Moreno Hernandez and my mother Leticia Calderón Martinez, along with my brother Thiago Moreno Calderón, who is 9 years younger than me.

Since I was a child, I have always been faced with the idea of learning something new every day, so I have always been a curious and dreamy person.

When I was young, English fascinated me. It felt like a beautiful challenge. I started teaching myself bits and pieces over the years, and now? It's a language I truly love speaking it, hearing it, getting lost in it. I'm so grateful I learned it, not just to connect with people everywhere, but because it opened the door for me to join *Niños Adelante*. Because of it, I've built a deep, meaningful bond with my sponsors. One I treasure more than words can say.

Since I started my studies, I have been a very dedicated person to them, because I really enjoy spending part of my time learning new things, in elementary school I had several awards, something that also happened in secondary school, unfortunately I did not have the opportunity to enter the foundation during those years, however, in 2022 I had the wonderful opportunity to be part of the foundation thanks to my perseverance and effort, that was something that would undoubtedly change my life

forever, because it gave me the opportunity to meet the wonderful people who are my sponsors, I am very grateful that they are part of my life and I would like to fill them with pride by showing that their support is not in vain.

My dream now? To study International Logistics Engineering. I've learned about the field, and I know I want to play my part in helping move the world's economy forward—using smart logistics to bring people and places closer. I also plan to learn Mandarin Chinese, to unlock new possibilities for my career. And one of my biggest wishes? To study abroad someday. I want to live somewhere new, soak up another culture, and meet people who will leave footprints on my heart.

My parents work tirelessly to give me a good education, and I want to thank *Niños Adelante* and the scholarship committee, too. You give young people like me a chance—a hand to hold when dreams feel heavy. So many parents, like mine, fight every day to see their children soar. Your support lifts us higher and makes that fight a little lighter.
