

Hello Mike and Kathy,

Sorry for taking a while to send this letter, but since I started my medical classes I've been busy

all day with homework, things to read and more than this week I'm in exams, but I know that this is not an excuse to write and thank you for all this support with the scholarship you are giving me.

I am truly eternally grateful to you for supporting me in my dream of studying medicine. In this short time that I have been in college, I have realized that I am where I wanted to be and I am really happy to be able to study medicine.

I am currently studying at the Universidad Autónoma Española de Durango, located in Durango. Due to COVID issues I am taking my classes online, but this does not stop me from continuing my studies.

Due to too much demand in the medical field I could not enter a public university but with your support and that of my parents I am studying at a private university and nevertheless with my knowledge I acquired a scholarship in tuition that will

reduce the costs of it a little. I really don't have the slightest idea of how to thank you for all that you do for me, my family is also very grateful to you and I know that this is something that will never make me give up on my dreams.

I hope to see you in February if I don't have to be in Durango for my classes, so I can talk to you about how I feel about my college career, and tell you again how grateful I am to you.

Thank you very much for your support, I love you, a big hug and kiss from Zihuatanejo, Guerrero.

Cristina Piñeda
